RE: Restricted Parts list update	DATE: August 20,2015

MBUSA's Certified Collision Program has updated the aluminum parts restriction list.

The restricted parts list is based on WIS procedures designating a Level 3 or 3+ repair for aluminum welding.

Above the normal information needed when placing an order, you will need the identification number of the Elite Certified Collision Center, (ECCC Code), sponsored by your Dealership as well as the Certified Welder's MBID#. If you have any questions please contact the Collision Team directly (see contact information below)

The parts in the attachments are available for ECCCs only. For ordering assistance, please contact the PAC at (877) 727-8762. They will place the order and the parts will ship directly to the ECCC.
